**Subject:** SRP-AEPCO Letter Regarding CCR Part B Implementation

Good Afternoon Mr. Breen –

Please find attached a letter from Salt River Project Agricultural Improvement and Power District (SRP) and Arizona Electric Power Cooperative (AEPCO) urging EPA to take action on our pending applications to conduct alternative liner demonstrations for our respective coal combustion residual units as provided for in EPA's Part B rule.

We would welcome questions from your agency or requests for additional information that may be necessary for EPA to complete application review. You may reach out to either me (602-503-9694) or Michelle Freeark (520-237-1825) as necessary.

Thank you for your consideration.

Kara
